

DIGITALLY GUIDED ALL-ON-4[®]

DESIGNING STACKABLE GUIDES
FROM SURGERY TO REHABILITATION

www.malocliniceducation.com

Presented by

Ana Ferro, DDS
João Rangel, DDS
João Martins, DDS
and the MALO CLINIC
Clinical Team

COURSE OVERVIEW

- Live Surgery using a digital approach using stackable guides
- Re-thinking oral rehabilitation
- Patient selection and treatment planning
- Comprehensive Overview of the All-on-4® Surgical Protocol
- Software selection
- Designing of digital guides
- All-on-4® surgery and prosthesis relining using the guides in printed models

PARTICIPANTS

Dental technicians and professionals experienced in implant dentistry

AVAILABLE DATES

JUNE 05-07, 2025

PROGRAM DURATION

3 Days

COURSE FEE

Dental Technicians | 2.500€

Prosthodontic team (Doctor + Dental Technician) | 4.250€

SYNOPSIS

Created at MALO CLINIC, the All-on-4® concept is backed up by more than 20 years of clinical research with excellent long-term results. In recent years digital tools have been introduced into implant and prosthetic dentistry as a way to provide a significant gain in predictability, accuracy and safety.

Designed for those that want to integrate a complete digital workflow in the rehabilitation of total edentulous patients, this hands-on course aims to:

- teach how to use BlueSkyPlan® and Meshmixer® software,
- how to reverse plan your surgery based on the prosthesis design,
- digitally plan bone reduction and implant placement,
- design, print and finish custom guides,
- use all these tools on surgery day.

With live surgery, 3D planning and hands-on in printed models, we will help you gain proficiency in the planning and execution of complex full arch rehabilitations of the maxilla/mandible through the All-on-4® concept, using a digital workflow

BASIC COURSE OUTLINE

LECTURERS: Ana Ferro, DDS; João Rangel, DDS; João Pedro Martins, DDS and the MALO CLINIC Clinical Team

PRE-COURSE

It is mandatory for you to watch the online course for all the theoretical concepts. Bring your questions to the clinical team!

DAY 1

08:00 – 12:00	Welcome Desk LIVE Surgery of a Digital planned case Introduction: - Presentation of the softwares to be used - Demonstration of a digital All-on-4® clinical case Coffee break included
12:00 – 13:00	Practical demonstration of intraoral scanning
13:00 – 14:00	Lunch Break
14:00 – 16:00	Digital planning software basic commands and functions
16:00 – 16:30	Coffee Break & Networking
16:30 – 18:00	Digital preparation of the digital case

DAY 2

09:00 – 13:00	Hands-on Designing of digital guides - Each participant will bring their own laptop and will have access to material to allow designing their own guides for an All-on-4 case. Coffee break included
13:00 – 14:00	Lunch Break
14:00 – 16:00	Morning continuation
16:00 – 16:30	Coffee Break & Networking
16:30 – 18:00	"3D printing: materials, methods and workflow"

DAY 3 - Hands-on (morning)

09:00 – 13:00	Hands-on "3D printing: materials, methods and workflow" (continuation) - Each participant will perform an All-on-4® surgery and prosthesis relining using the guides in printed models. Coffee break included Course wrap-up and farewell
