MALO CLINIC PRO ARCH:
THE DIGITAL FULL ARCH EXPERIENCE

- February 18-20, 2027
- June 17-19, 2027
- September 20-22, 2027
- November 18-20, 2027

MALO CLINIC PRO ARCH: THE DIGITAL FULL ARCH EXPERIENCE

COURSE OVERVIEW

Hands-on course covering the full digital workflow for immediate full-arch rehabilitation — from planning to temporary and final restorations.

Learn to work with:

- SmileCloud (digital smile design)
- CoDiagnostiX (surgical planning)
- Intraoral scanning (Sirios / TRIOS)
- Straumann iExcel (freehand)
- Straumann iGuide™ (guided surgery)
- Smile in a Box® & EXACT workflow (restorations)

For clinicians seeking predictable, efficient, and aesthetic outcomes through digital integration.

Presented by:
Dra. Ana Ferro
Dr. Armando Lopes
Dr. Carlos Moura Guedes
Dr. João Martins

DIGITAL IMMEDIACY PROARCH EXPERIENCE + EXTRA DAY

COURSE OBJECTIVES

- Understand and perform a digital freehand immediate-load full-arch workflow from data capture to locally 3D-printed provisional restoration.

  Learn to execute a guided immediate-load full-arch workflow using surgical guides and prefabricated temporaries.

  Master the digital prosthetic workflow from provisional restoration to definitive full-arch reconstruction.

  Learn how to maintain long-term success through accurate planning, execution, and maintenance.

AGENDA MACRO-OVERVIEW

- ### DAY 1 - Digital planning & freehand immediacy

  Morning

  Planning + freehand live surgery with photogrammetry

  Afternoon

  Hands-on photogrammetry protocol + case discussion

- ### DAY 2 - Guided surgery with Straumann iGuide™

  Morning

  Planning + guided live surgery with Straumann iGuide™

  Afternoon

  Smile in a Box® service on boarding, hands-on Straumann iGuide protoco™l + case discussion

- ### DAY 3

  Immediate load to final restoration workflow step by step with some live patients.
